**CAPTAIN THOMAS D. WATSON, SEEKING TO RECRUIT TO FULL STRENGTH NOW**

"Glendale's own," the Fifth Separate Company, California National Guard, of which Captain Thomas D. Watson is commanding officer, is seeking to recruit to full strength immediately in order that it can have an eighty per cent enrollment present at the annual encampment to be held in the latter part of June.

The Militia Bureau of the War Department at Washington, D. C., has just informed Adjutant-General Boree, of the California National Guard, according to Captain Watson, that funds will be available for a fifteen-day period of field drill provided such encampment is held prior to June 30.

### Over Score Are Needed

Twenty-five men are needed for the local company and all who are interested in taking this two-week trip with the guardsmen, as well as receiving pay for practice drills, are requested to enlist this Thursday night at the high school athletic field where the guardsmen will be drilling.

The Glendale doughboys won high praise from Major H. H. Cotton, who inspected the company here last Thursday night. Besides Captain Watson, Lieutenant Normal C. Hayhurst and Lieutenant Charles Letts, Major M. P. Vestal is aiding in the instruction.

Barnes of North Glendale was one of those who enjoyed the party.

## ANNUAL BUSINESS MEETING HELD BY FIRST PRESBYTERIAN CHURCH

The annual business meeting of the First Presbyterian church was held last night. The Rev. W. E. Edmonds was chosen to act as moderator and R. P. Isitt as clerk.

Reports were given by every organization connected with the church work and also by the treasurers of the various organizations. Without a single exception these reports showed growth and enlargement. More members have been received than in any preceding year of the congregation's history. More money has been raised and disbursed than ever before. More than \$4000 has been paid into the regular benevolence channels of the denomination.

The budget presented and adopted for the coming year is larger and more comprehensive than ever before.

The following officers were chosen: Trustees, T. W. Preston, J. M. Effe, C. E. Boss, J. B. McClellan, T. Weien and W. S. Perrin; deacons, J. W. Cooper, R. D. King, R. C. Kelley, F. W. Harper, N. H. Stanley, G. F. Daugherty, H. C. Rietberg and F. G. Taylor; elders, J. E. Colvin, M. P. Harrison, J. Rhea Baker, G. D. McDill and H. Stadt.

The new church building received considerable mention and because of lack of space in the present building it may be necessary to plan for the new church at an early date.

## Carol Willisford In Redondo School

The many friends of Miss Carol Willisford, who until last December had been living in Glendale with her parents, Rev. and Mrs. E. H. Willisford, will be pleased to learn that she has accepted a position in the high school at Redondo. She graduated from the mid year class at Pomona college in January, in which institution she made such remarkable records that a membership in the Phi Beta Kappa honor society was conferred upon her. Immediately after graduation, Miss Willisford was presented with attractive offers from several Southern California high schools, and of them all she selected Redondo as the most promising. She is teaching both mathematics and English, although her favorite subject is the former.

Miss Willisford expects to leave immediately after the spring term closes in June to visit her parents and sister, who are located in Texas, where she will spend the summer vacation.

## GREAT INTEREST IN READING CIRCLE'S WORK IS SHOWN

**ABOUT SEVENTY-FIVE ATTEND GATHERING ON WEDNESDAY; PROGRAM FINE SUCCESS**

The regular meeting of the Mutual Benefit Reading Circle, which was held at the Glendale public library on Harvard street yesterday, was attended by about seventy-five members.

Luncheon was served at noon, at which time pies, which had been donated by some of the members, were sold and the money received put in the general fund.

The meeting was called to order by the president, Mrs. A. A. Barton.

Mrs. C. M. Taylor gave a very interesting talk on an article from March Harper's, "Vitaminics," by Elwood Henricks, which is a new light on the mysteries of nutrition.

Mrs. Eustace Moore continued reading Dickinson's "Your Boy, His Nature and Nurture."

The meetings of the Mutual Benefit Reading Circle are of great interest and those attending receive much benefit. The gatherings are looked forward to with a great deal of satisfaction.

## Latest Plaything Is Rolling Rubber Tires Discarded By 'Lizzie'

Ever roll the hoop?

Sure, you have. And it's lots of fun.

But the kiddies who attend the Columbus avenue school have something better than hoops to roll. For hoops are scarce.

And discarded "flivver" tires are not.

There is practically no sale for worn-out rubber on the Pacific coast. So when it's "time to retire Lizzie" the children gather 'round and the whole family goes rolling the latest plaything to school.

There's where the fun begins. They have a "slide" over at the Columbus avenue school and Willie, Johnnie and Pete see which one's tire rolls the farthest after it goes bounding down the "slide."

All of which makes bouncing a rubber ball "jes play for th' babies," confided Willie yesterday afternoon.

## Hunting Specimens

Of fish and birds and bugs we'll sing today.

For Prof. Alfred Cookman and the advanced science classes of Glendale Union High school and Miss Eleanor Greene's biology class went to the Los Angeles river this morning to get specimens.

So don't be excited, folks, if you hear the most strange sort of stories tonight or if the students display a "creepy" feeling, for you're in on their adventure.

## Luncheon Given By Mrs. A. H. Dibbern

### STATE MUST PAY \$5000 BECAUSE OF 'PLAYFUL' ACT

SACRAMENTO, March 31.—The state must pay \$5000 because a workman on a local job playfully heaved a brick. The brick in falling struck Tony King, a carpenter, killing him instantly. The industrial accident commission awarded his widow \$5000 compensation.

### CARL IS MAKING FULL USE OF RAILROAD SYSTEM

PARIS, March 31.—The report that Carl's army already had reached Raab indicated that the military leaders were making full use of the railway line from Steinamanger to the capital. The troops, it was believed, had been fully prepared for quick mobilization. The railway runs northward from Steinamanger almost to the southern boundary of Czechoslovakia before dropping down into Budapest.

### HARDING LEAVES RAILROAD SITUATION WITH BOARD

WASHINGTON, March 31.—President Harding will leave any immediate steps in dealing with the railroad situation to the interstate commerce commission and the railway labor board, it was announced at the White House today, following a two-hour conference between the executive and Chairman E. E. Clark of the interstate commerce commission and R. R. Barton, chairman of the railway labor board.

### PROPOSED RATE INCREASES ARE ORDERED SUSPENDED

WASHINGTON, March 31.—Proposed increases in class and commodity rates from New York and Atlantic seaboard territory to Louisiana and Mississippi were ordered suspended until August 29 by the interstate commerce commission today. The operation of a tariff to reduce from 60,000 to 33,000 pounds the minimum carload sugar weights in the west, southwest and middlewest was ordered suspended until July 30.

### MORE APPOINTMENTS MADE BY PRESIDENT HARDING

WASHINGTON, March 31.—Charles H. Burke, ex-congressman from South Dakota, was named commissioner of Indian affairs; Thomas E. Robertson, patent lawyer, from Chevy Chase, Md., was appointed commissioner of patents, and George H. Carter, Iowa, was named public printer, it was officially announced at the White House today. Captain William A. Moffet, U. S. N., has been appointed a member of the advisory committee for aeronautics, it was announced.

### ENGLAND IS THREATENED WITH INDUSTRIAL UPHEAVAL

LONDON, March 31.—Great Britain was threatened with an industrial upheaval today through "triple alliance" strikes. Miners were ordered to strike tonight when government control of the industry is ended and colliery owners attempt to enforce a lower wage scale. An emergency meeting of transport workers was called for Tuesday to consider a sympathetic strike. Railway workers will meet Wednesday to discuss action on threatened wage cuts.

### FORMER EMPEROR CARL RESOLVES TO MOUNT THRONE

VIENNA, March 31.—Former Emperor Carl announced today that he is resolved to mount the throne, according to a dispatch received today from his headquarters at Steinamanger. Premier Mayer of Austria convoked parliament to meet tomorrow and declared that Austria was opposed to Carl's return. He assured the allies that Austria will resist him. Carl, according to the dispatch from Steinamanger, appointed Count Sigrav governor of West Hungary and General Lehar commander of the royalist forces.

### FRANCE INTENDS TO HONOR DEBTS, IT IS ANNOUNCED

PARIS, March 31.—Rene Viviani in his conference with President Harding yesterday declared France intends to honor her debts, according to Washington correspondents of Paris newspapers. L'Information's dispatch said Viviani told the president France would pay the debts and that all she asked was a delay to strengthen her financial situation. The dispatch said Viviani pleaded for American membership in the league of nations and assured the president that members of the league seem to agree to the demand for abolishment of Article X.

### BEARS RAID STOCK MARKET DURING EARLY TRADING

NEW YORK, March 31.—Bears raided the stock market during the early trading today. Several stocks showed heavy declines. The decline did not result from any particular news factor but rather appeared to be the result of traders believing that after yesterday's declines there were stop loss orders just under the market which could be uncovered. Shortly after the opening Pennsylvania made a new low of the year at 33 3/4. United States Steel at 80 3/4 was down 3-8. The two stocks which showed slight strength were International Harvester, up 1-8 at 83, or two points above yesterday's low, and Sears Roebuck up 1-8 at 68 3/4.

### STATE PHARMACY BOARD WILL NOT BE INVESTIGATED

SACRAMENTO, March 31.—There will be no investigation of the state pharmacy board, the assembly efficiency and economy committee decided at its meeting here last night. Louis Zeh, secretary of the pharmacy board, spent two hours telling the committee how the board spent its appropriation. A resolution introduced late yesterday in the senate by Senator Harry Chamberlain of Los Angeles, asks a legislative investigation of the schools of the state. The resolution charges teachers are promulgating "un-American and unsound doctrines" in the schools. Action was postponed late yesterday by the senate on the proposed budget cuts suggested by Max Thelen, representing the Tax Investigation and Economy league. The budget will come up for discussion Monday. Reorganization measures will be considered tomorrow evening by the senate.

## FORMER EMPEROR IS PLANNING ATTACK UPON BUDAPEST

**CARL PROCLAIMS HIMSELF AS DICTATOR; THREE NATIONS THREATENING WARFARE**

BERLIN, March 31.—Former Emperor Carl has proclaimed himself military dictator and may march on Budapest with monarchist troops, according to Vienna dispatches today. Other dispatches said it was uncertain that Carl would attempt to carry out his adventure but would accept an invitation to make his home in Spain.

BUDAPEST, March 31.—Three nations today threatened to make war on Hungary if former Emperor Carl takes the throne.

They demanded his immediate expulsion from the country.

This threat and demand came from Roumania, Czechoslovakia and Jugo-Slovia.

Simultaneously, with news of their ultimatum it was reported that former Emperor Carl was marching on Budapest with an army of 30,000 men. He had already passed Raab.

VIENNA, March 31.—A military dictatorship was reported declared today in West Hungary. Former Emperor Carl is at Steinamanger in West Hungary.

Military forces there are under command of General Lehar, who was said to have rejected Carl's plan for supporting him in an attempt to regain the throne.

Admiral Horthy, regent of Hungary, yesterday sent Count Stephan B. Lethen to Steinamanger as envoy plenipotentiary. The count had a large force at his disposal to prevent a monarchist uprising.

(The dispatch does not indicate who assumed the dictatorship. It was believed that General Lehar, in command of troops in West Hungary had taken charge of affairs since he has sworn to uphold Regent Horthy. There was a possibility, however, that Carl had secured the support of sufficient troops to control the region. Dispatches were fragmentary, indicating a censorship.)

### Former Emperor Detained

The former emperor is detained at the residence of Bishop Count Mikek, the latter now under arrest on charges of supporting a plot for Carl's enthronement. At the war office, it was stated that Carl virtually is a prisoner. General Belitska, minister of war, declared the entire army would support the regent.

Vienna authorities said the great- (Continued on Page Six)

## L. A. Gas Company's Offer Attractive

The Los Angeles Gas and Electric  
corporation is making a very attrac-  
tive offer to those who have money to  
invest. They are offering the Preferred  
stock of the corporation at  
\$85 a share (par value \$100 a share)  
with definite earnings of better than  
7 per cent. The additional capital ac-  
cumulated by the sale of this stock  
is to be used to expand the service  
so that the gross earnings of the cor-  
poration will be materially increased.  
This preferred stock holds priority  
over common stock, it is uncalled  
and constitutes quick collateral. Divi-  
dends are payable quarterly, they  
are cumulative and the security, say  
these who know, is unquestionable.  
This is quite an opportunity for the  
small investor for as little as one  
share may be purchased on monthly  
payments. The stock is free from  
taxes in California and the dividends  
are not subject to normal Federal in-  
come tax.

Besides dealing in local real estate,  
this company is the Glendale agent  
for the Aetna Life Insurance com-  
pany; Automobile Insurance com-  
pany, Hartford, Conn.; the Aetna  
Casualty and Surety company, and  
the California Torrens Title corpora-  
tion, the latter of Los Angeles.

The Rommel Construction com-  
pany, of which John Rommel and

## ADVANCE PLANS TO QUIT 'HECKLING' BIG BUSINESS

HARDING ADMINISTRATION TO  
CALL HALT ON ACTIVITIES  
GOING SINCE T. R.

WASHINGTON—There is to be an  
end of all government measures,  
either executive or legislative, in the  
way of restriction or even investiga-  
tion of the meat packers, the coal,  
lumber and oil producers and dealers,  
and other like big business enter-  
prises. One of the outstanding fea-  
tures of the first week of the Harding  
administration has been the vigorous  
steps taken to this purpose.

One of the most important of such  
measures, according to the present  
plan of Republican leaders, is the  
abolishment of the Federal Trade  
commission. Senator Penrose, a  
most consistent and bitter opponent  
of the trade board, indicated this  
purpose today, when he said:

"One of the improvements that  
will come under the Republican  
administration will be the elimina-  
tion of autocratic, irresponsible and  
inefficient boards and commissions  
which have been handicapping busi-  
ness for the last few years."

Meaning Is Undoubted  
Senator Penrose did not mention  
the Federal Trade commission  
specifically, but there is not the  
slightest doubt that this is the body,  
first and foremost, that he has in  
mind.

The commission initiated most of  
the investigations of big business  
under Mr. Wilson. It collected and  
presented to the public continuously  
all of the facts related to the produc-  
tion and distribution of all products.  
It instituted the investigation of the  
meat packing industry, directed by  
Francis J. Heney, San Francisco,  
which resulted in forcing at least a  
nominal disposal by the packing  
plants of their business in all com-  
modities, other than meats and meat  
by-products, and the sale of their  
stockyards.

The commission investigated the  
coal industry during the war and sup-  
plied much of the information used  
by Dr. Harry A. Garfield, fuel admin-  
istrator, to fix prices and dealers'  
commissions. A year or more ago  
the courts held that the commission  
had no power to subpoena coal deal-  
ers or to compel reports from them  
and its activities with this regard  
were stopped. But the commission  
has continued to delve into the facts  
respecting conduct of dealers in the  
great necessities of life wherever it  
could get a toehold.

Justice Department, Too

The same general policy has been  
indicated by Atty-Gen. Daugherty,  
who announced several days ago  
that his chief effort would be to re-  
duce litigation. Mr. Daugherty  
made it clear that he would confine  
himself to handling government rou-  
tine legal business, and that he would  
particularly refrain from going in  
search of cases against private citi-  
zens and corporations.

Since the days of Theodore Roose-  
velt the department of justice has de-  
voted most of its time to the enforce-  
ment of the anti-trust laws and other  
measures regulatory of big business,  
but it is quite clear that under the  
direction of Mr. Daugherty all this is  
to be changed.

Even more significant are the  
measures being taken in the same  
direction by the majority leaders  
in congress. These leaders are taking  
vigorous steps to insure that there  
will be no revival of the legislative  
measures for regulation of the meat  
packers, grain and coal dealers,  
which died in the last congress.

## Makes Statement To Labor Board

CHICAGO, March 31. — National  
union of management against local  
union of employees would be the re-  
sult of abrogation of the national  
agreements between railroads and  
workers, according to Bert M. Jewell,  
president of the railway department  
of the American Federation of La-  
bor today. Jewell told the United  
States railroad labor board there are  
certain rules on working conditions  
purely local in application which  
should be negotiated between work-  
ers and the individual roads.  
"The national agreements contem-  
plate such negotiations," Jewell de-  
clared. Rail executives have asked  
that national agreements be abro-  
gated.

## Judge Lindsey Says He Will Pay Fine

DENVER, Colo., March 31.—That  
he will pay a \$500 fine rather than  
go to jail for contempt of court was  
intimated by Juvenile Judge Ben B.  
Lindsey today whose final arraign-  
ment will be held Saturday. Judge  
Lindsey was sentenced to pay a fine  
or serve one year in jail for contempt  
when he refused to reveal to the  
court the confidences of 16-year-old  
Neal Wright, whose mother was ac-  
quitted of the murder of her husband,  
Frank Wright, five years ago.

Seattle, Wash., is now the leading  
divorce center in the United States.

## Pasteurization as Health Officers See It

Dr. E. C. Sherman, Acting Executive Officer, Chemistry De-  
partment, Columbia University:

"Regarding the advantages of pasteurization of milk, I share  
the view which I think is now prevalent that, as a safeguard  
against the possibility of milk-borne infection, tuberculosis, diphe-  
theria or scarlet fever, it is better that all milk below the grade of  
Certified or Guaranteed should be pasteurized."

We have been convinced by this report and dozens of other  
proven tests within the last year that there are only two standard  
grades of milk, therefore we recommend

## JAPAN AND RUSSIA ITALY SENDING ITS MAY CLASH; BOTH SIDES READY SURPLUS PEOPLE INTO AMERICA

SITUATION IN FAR EAST IS  
DECLARED SERIOUS; WAR  
MIGHT INVOLVE U. S.

By CHARLES EDWARD HOGUE  
(United Press Staff Correspondent.)

HARBIN, Manchuria—War is  
brewing in the Far East—and it may  
not be without grave import in the  
United States.

Of course wars of a certain kind  
are novelty out here, but the impend-  
ing conflict promises to go far beyond  
the less serious affairs the East has  
come to call wars and which have  
kept Siberia, Manchuria and China  
in constant turmoil for years.

Japan and Red Russia are at each  
other's throat. The final clash may  
come at any moment. Again, it may  
be avoided—sincere patriots in each  
country are doing their utmost to  
prevent another Russo-Japanese war.  
But the outlook is not bright.

Admits Situation Serious

General Takayanag, Japanese  
chief of the staff in Siberia, has ad-  
mitted the gravity of the situation.  
He said in an interview that he had  
heard of plans in Soviet Russia for an  
attack on the Japanese, but that he  
did not wish to consider them as  
authorized. But he added: "Japan  
is ready."

It is known that the Chita govern-  
ment has received word from Moscow  
to take a more aggressive stand  
against Japan and China. Three rea-  
sons for this order are apparent.

1.—Closing of the Manchurian bor-  
der has been a severe blow to the So-  
viet.

2.—Conditions in Red Russia make  
the re-opening of the relations  
with other Eastern nations of vital  
importance.

3.—Leaders of the Soviet fear the  
dissolution of the Red Army, unless  
it can be employed in another war.

Drive May Be Started

There are reports, how true they  
are can only be speculated on, that  
a union is being formed between At-  
man Semonoff, Chang Tso-lin, who is  
probably China's strongest militarist,  
and the Japanese high command at  
Mukden.

If these stories are correct a con-  
certed drive against the Red in Siberia  
may begin soon. Reports have it  
that Chang Tso-lin has agreed to re-  
store to the Semonoff and Kappel  
armies the arms and ammunition  
which was taken from them when  
they were driven across the Manchuria  
border by the then victorious  
Reds.

In the meantime, comparative  
peace reigns in China. The South-  
ern faction is holding a session of  
parliament at Canton while the Chil-  
nites, who deposed the Anfu military  
party at Peking, continue their reign  
in the North. Both have inactive ar-  
mies in the field. The only battles  
being fought are skirmishes between  
roving guerilla bands.

WORKERS' PLAN FOR  
ITALY'S INDUSTRY  
CONTROL URGED

DIFFICULT TO AGREE UPON  
METHODS OF PROCEDURE;  
TROUBLE IS FEARED

By HENRY WOOD  
United Press Staff Correspondent  
ROME—Italy's hopes of finding a  
panacea for all industrial ills by  
granting workmen the right of exer-  
cising an auditory control of the in-  
dustries in which they are employed  
are little nearer being realized than  
when Premier Giolitti first advanced  
the idea.

The trouble is that the workmen  
and the industrialists cannot agree upon  
the precise nature of the pill to be  
swallowed. The pill that has been  
concocted by the government is re-  
garded as too big by the industrialists  
to go down, while the workmen con-  
sider it too small to produce the de-  
sired results.

Before the precise measure can be  
formulated that will give satisfaction  
to both sides and be finally enacted  
into law, it is very likely that Italy  
will witness one or two changes of  
government. The question gives  
every indication of becoming the cap-  
ital one in Italian internal politics  
until it is settled.

Following the announcement of  
Giolitti last fall, at the time Italian  
workmen were occupying factories and  
endeavoring to Sovietize them,  
that he would introduce in parlia-  
ment a bill granting workmen's con-  
trol of the industries, a joint com-  
mission was appointed by him to  
draw up the promised measure. The  
commission was composed of both  
industrial and workmen's represen-  
tatives.

## Provisions Of Measure

In the end it was unable to  
agree upon a joint measure and as a  
consequence both sides turned in to  
Giolitti a measure of its own. From  
these Giolitti had the members of  
his cabinet draw up a single measure  
embracing the best features of the  
two submitted by the commission.

This in turn met with many ob-  
jections from both sides and had to  
be repeatedly modified. The bill as  
it now stands before the Italian par-  
liament provides that separate  
machinery for control shall be or-  
ganized for the eleven principal cate-  
gories of industries. These are met-  
al, textile, chemical, food produc-  
tion, leather, electrical, building,  
land transportation, water transpor-  
tation, printing and mining.

From the industries to be "con-  
trolled" there are excluded all in-  
dustries run by the state, or by  
municipalities, those which have not  
been in operation for more than four  
years and those which employ less  
than sixty workmen.

The workmen of each of the  
eleven categories of industries will  
elect their own control commission,  
consisting of nine members, of which  
six shall be workmen generally, while  
three shall come from the ranks of  
engineers and technical experts. Each  
commission will hold office for three  
years and can be re-elected.

## Regulation Of Workmen

This commission of control of nine  
members for each class of industries  
will in turn appoint two or three de-  
legates in every establishment whose  
duty it will be to report to the com-  
mission on all matters over which it  
has the "control."

The bill provides regulations for  
the employment and discharge of  
workmen, the principal feature of  
which is that political and religious  
opinions, as well as the question of  
unionism or non-unionism are not to  
be allowed consideration.

To date the greatest objection of  
the industrialists to the bill is on the  
clause which gives the workmen's  
control commission the right to  
name two or more delegates in ev-  
ery establishment for the purpose of  
keeping the commission informed on  
the points over which it has control.  
The bill is recognized to be the  
most advanced step which any nation  
has yet taken in an effort to estab-  
lish a new regime between capital  
and labor.

## ART

"Pa, what's an actor?"  
"An actor, my boy, is a person who  
can walk to the side of a stage, peer  
into the wings at a group of other  
actors waiting for their cues, a num-  
ber of bored stage hands and a lot  
of theatrical odds and ends and ex-  
claim, 'What a lovely view there is  
from this window!'"

People Get Chance  
To Become Partners

Encouraging the people of the  
south to become partners in one of  
the largest and strongest electrical  
companies in the world and to aid in  
the development of California water  
powers, the Southern California Ed-  
ison company is offering its common  
stock for sale on an 8 1/2 per cent  
dividend basis. This company is  
recognized as one of the most soundly  
financed and prosperous utilities in  
the country. This stock is issued un-  
der the authority of the railroad com-  
mission and can be used only for the  
construction of additional hydro-  
electric power plants and lines. The  
company has assets of more than  
\$110,000,000.

Wholesale Release  
Of Exiles Predicted

LONDON, March 31.—The "Haps-  
burg peril" was reflected in all Eu-  
rope today. Throughout the con-  
tinent there were hasty conferences on  
the attempt of former Emperor Carl  
to return to the Hungarian throne.

Military actions by outside nations  
were a possibility.

Carl's success, it was believed, will  
be the signal for the wholesale re-  
lease of noble exiles from Switzer-  
land—perhaps even a return of a  
Hohenzollern to Germany, which is  
now in turmoil.

King Constantine's successful ap-  
peal to his people was believed to  
have brought about Carl's specta-  
cular effort to reinstate himself.

Evidence here was that Carl was  
keenly disappointed that his return  
to Hungary had not resulted in an  
instantaneous uprising by his people.

Even after private conferences  
with monarchist leaders had shown  
that the time was not ripe for his re-  
turn, he persisted.

His first effort was to obtain the  
support of General Baron Lehar,  
commander of the West Hungarian  
forces.

"I have sworn allegiance to the  
Horthy government," the baron re-  
plied. "I must keep my oath as a  
soldier."

Carl then arranged a conference  
with Admiral Horthy himself. Horthy  
was respectful, but firm. Carl, with  
an assumption of his old authority,  
told the new ruler that the choice for  
him lay between his king and the  
nation.

"I choose the nation," Horthy re-  
plied.  
"Only the parliament can decide  
whether Hungary is again to be a  
monarchy."

Officials Optimistic  
On Business Outlook

WASHINGTON, March 31.—The  
world is producing more but trading  
less than ever before, a survey of go-  
vernment reports from all countries  
disclosed today.

The business barometer is low in  
every land, this information revealed.  
At the same time agricultural basic  
wealth is high everywhere and crop  
production and prospects fine, with  
the exception of Russia, sections of  
central Europe and drought regions  
of Asia.

For that reason government offi-  
cials who watch world business con-  
ditions are optimistic. When trans-  
portation and credits are corrected  
world business will swing into shape,  
they said. That will take time and  
trouble, but will be done.

"It is the first time world over-  
production ever brought about world  
business depression," said Herbert  
Hoover, secretary of commerce.

Both exports and imports of Eng-  
land and the United States show de-  
creases, as do those of virtually every  
country in current reports, although  
the same surveys show additions to  
raw material production.

The surplus stocks are piling up  
until they can be moved at a trans-  
portation charge the traffic will bear  
and until manufacture is justified by  
credits that will make possible their  
purchase.

New Tariff Filed  
For Seattle Port

SEATTLE, March 31.—Eliminat-  
ing all wharfage and handling  
charges, the port of Seattle filed a  
new tariff with the public service  
commission today.

The tariff will establish Seattle as  
the cheapest port on the Pacific coast  
and one of the most economical in  
the world, it is claimed.

Cargo dispatched through Seattle  
on a through bill of lading may be  
sent without any terminal charges  
against the shipper.

The tariff is the opening gun of  
Seattle terminal interests in their  
campaign for increased transporta-  
tion over local piers. A publicity  
campaign also will be launched to  
boost Seattle's port facilities.

## SALESMANSHIP

"How do you manage to sell so  
many fireless cookers?"

"It's due to my method of ap-  
proach," said the smart salesman. "I  
begin my little talk by saying, 'Ma-  
dame, I have called to enable you to  
spend every afternoon at the mov-  
ies.'"

To further her appeal to the vot-  
ers, a woman campaigning as Dem-  
ocratic candidate for state auditor of  
Massachusetts spent \$25 for candy,  
according to her expense account.

LATEST IDEAS FOR

BENTLEY-SCHOENEMAN LUMBER  
COMPANY PREPARING PLANS  
FOR NEW RESIDENCES

Home builders throughout this  
section of the state are looking to  
Glendale for the latest ideas in bet-  
ter built houses, according to H. D.  
Charlton of the architectural service  
department of the Bentley-Schoe-  
neman Lumber company, 460 West Los  
Feliz road, South Glendale.

This firm has recently completed  
plans for a five-room residence which  
Contractor Elmer Elliott of 612 East  
Elk avenue will construct for the  
Misses Carrie and Louise Lawton in  
Hollywood. It will be electrically  
equipped throughout and cost in the  
neighborhood of \$5300.

Plans were delivered last night to  
L. B. Goddard of 220 West Garfield  
for a five-room cobblestone house  
which he plans to build in Tujunga.

J. G. Johnson of Pasadena also is  
having plans drawn for a large re-  
sidence to be constructed in that city  
this spring.

Residence Changes

are noted from records on file at the  
public service department of the city:

Brewster, 327 North Sinclair to 408  
West California, and C. A. Baldwin  
from 361 West Harvard.

Other persons calling for service or  
meter installations yesterday follow:

Fine Record Made  
By Ford Agency

As Glendale grows so does the busi-  
ness done by the Ford agency here.

Jesse Smith is proud of the record  
being made by his crew of salesmen  
this month and by tonight they ex-  
pect to have more than 100 orders  
placed on their books for Fords dur-  
ing the month of March. At noon  
today the figure was at ninety-five  
and a deal with a commercial house  
in Los Angeles means the sale of ten  
more, Mr. Smith is sure.

According to Edward S. Lawrence,  
Mr. Smith's assistant, two Los An-  
geles commercial houses this month  
have each purchased ten cars so that  
the Glendale Ford agency is literally  
selling Fords by the dozen.

Considering the month and consid-  
ering conditions generally through-  
out the United States, undoubtedly  
Glendale's record will loom large in  
the publicity put out by the Ford fac-  
tory.

ISSUES REPORT ON  
ROAD CONDITIONS  
THROUGH WEST

TOURING CONDITIONS LEARNED  
BY AUTO CLUB BUREAU;  
REPAIRS ON ROADS

Vital information concerning im-  
portant touring conditions in the  
west is contained in the latest report  
issued by the touring bureau of the  
Automobile Club of Southern Califor-  
nia. It is announced that the new  
bridge at Bunkerville on the Arrow-  
head trail leading to Los Angeles and  
this part of the state from Salt Lake  
City and vicinity has been completed  
and is open for business.

The Arrowhead trail is one of the  
most important connecting links be-  
tween southern California and the  
great agricultural districts of Nevada  
and Utah and for that reason the  
completion of the Bunkerville bridge  
is of utmost importance to motorists  
who have occasion to visit the sister  
states to the northeast.

## Repair Work Progresses

It is probable, according to the  
automobile club, that the Sequoia  
grove of big trees will be open earlier  
than ever this year to motoring vis-  
itors, as it has been possible for work-  
men to get on the road for the spring  
work much sooner than usual. Re-  
pair work on highways leading to the  
Yosemite, particularly the Wawona  
road, is progressing more rapidly  
than usual.

Rains this year have done little or  
no damage to the roads of the south-  
ern part of the state, reports the club,  
and conditions for spring and sum-  
mer touring were never better.

Motorists are apprised of the fact  
that visiting hours aboard the battle-  
ships in the harbor at San Pedro are  
from 1 p. m. to 5 p. m. on Saturdays,  
Sundays and holidays only.

Women in Holland will vote in the  
parliamentary election in 1922 for  
the first time.

## STYLES ARE SHOWN WITH NUMBER OF DRESSED DOLLS

WOMAN WORKS MORE THAN SIX YEARS TO MAKE UP BIG DISPLAY OF COSTUMES

PITTSFIELD, Mass.—Fashions in women's wear for the last 1600 years, from the abundant robes of the Roman patricians to the abbreviated skirts of today, are represented on 185 dolls dressed by Mrs. Charles S. Wright of this city. Work was begun on the unique collection of mannequins more than six years ago, after months of study of authentic prints portraying styles of different periods. It is said to be one of the best of its kind in the world.

In a specially furnished room madams of the dark ages contemplate belles of the Renaissance and sprightly debutantes of our ante-bellum and modern days. Eve also has a place in the fashion review, but merely as an example of how clothes make the woman.

Dress Unchanged for 500 Years  
One of the most interesting costumes is that of a fisherwoman from the Fifth of Forth. Tailored suits and peek-a-boo waists have had no effect on the lusty Scots who live on that arm of the sea, for their dress standard has remained unchanged for 500 years.

Shifts in American styles are illustrated by eight waxen-faced beauties, starting with the street gown of 1850. In this display are an afternoon frock of 1857, a calling costume of 1869, ball gowns of 1860 and spring wear of 1869. The opera goer of 1910 stands haughtily erect in the extremely tight skirt of that year.

Leaders in dazzling costumes are the Japanese, from the time of their introduction to the western world. Slant-eyed, brown-faced dolls present a complete picture of feminine Nippon's armor of conquest in rich silks and satins. A large group of Chinese mannequins, arrayed in heavy silk fabric, peep from beneath coquettish oriental sunshades.

Styles in Hats Are Featured  
Hats have received particular attention in the collection. There are horned headgear popular in the year 1200, the monster mitre hats and the sugarloaf hoods with clusters of hair, dressed high against the supporting heart-shaped device.

In analyzing the various styles, Mrs. Wright, who is an author and the wife of the district attorney of Berkshire and Hampden counties, says women of all ages apparently cared less for the material and more for the cut the world over.

## LYONS AND MORAN COMEDY IS SHOWN

LATEST FEATURE, "SHOCKING NIGHT," IS PRESENTED AT GLENDALE THEATRE

Although certain critics will doubtless refer to "A Shocking Night," Lyons and Moran's latest starring vehicle, announced for today and tomorrow at the Glendale theatre, as a bedroom farce, the fact remains that it is as wholesome as a mountain breeze; and this in spite of the fact that certain situations require Lillian Hall to appear in the most ravishing negligee ever designed and Alta Allen to disport herself in the daintiest pajamas imaginable.

"Trouble Bubbles" is a Century comedy thrown in for good measure, while the latest Pathe News gives world events of interest. Clement will play "Just a Little Love, Just a Little Kiss" as the feature organ number.

Tomorrow night an innovation in amateur vaudeville will be staged at the Glendale theatre at the close of the first show. It should certainly attract a record crowd.

## HOW HYMN WAS WRITTEN

"Lead, Kindly Light" was written in 1833, while Cardinal Newman was exploring the coasts of the Mediterranean in an orange boat. He gave the following explanation of the circumstances:

"I was aching to get home; yet, for want of a vessel, I was kept at Palermo for three weeks. I began to visit the churches, and they calmed my impatience, though I did not attend any of the services. At last I got off in an orange boat, bound for Marselles. Then it was that I wrote the lines, 'Lead, Kindly Light.' We were becalmed a whole week in the Straits of Bonifacio. I was writing the whole of my passage."

When the popularity of the hymn was mentioned later, he said: "But, you see, it is not the hymn but the tune that has gained the popularity. The tune is by Dykes and Dr. Dykes was a great master." The words of this famous hymn first appeared in "The British Magazine" for March, 1834.

President Harding has split an infinitive, and former President Wilson must be firmly convinced that the country is going straight to the dogs.

## BUILDING BOARD OF C. OF C. TO TALK OVER PROJECT

COMMITTEE TO DISCUSS PLAN TO OWN HOME; LEASE FOR YEAR TAKEN ON ROOM

The building committee of the Glendale Chamber of Commerce will dine Friday at noon at White Inn on Glendale avenue and consider plans for the formation of a building company which will erect a home for the organization as well as office and store rooms.

In the meanwhile the Chamber will take a year's lease on the Cole & Damerell building between Brand boulevard and Orange street on the north side of Broadway.

It is expected that these quarters will be ready for occupancy by April 15.

The present headquarters of the organization are very crowded and, as a result, the highest efficiency is not obtained by Secretary James Rhoades and his assistants. Further, the crowded condition of the office furniture, due to lack of space, does not present a very pleasing showing to visitors.

The work of the Chamber of Commerce is increasing daily. There are a number of visitors to headquarters and many inquiries made concerning Glendale and its attractions.

## Furs And Education Are Now Being Mixed

MONTREAL, Quebec—The gift of \$20,000 by the Hudson Bay company to McGill university recently emphasizes the changed attitude of the old fur corporation toward civilization. Time was when it knew no university but the wilderness and no business but furs.

Chartered in the days of Charles II, the company's history for 200 years was the history of Western Canada. Beginning with its first posts on Hudson Bay, it came in time to be absolute lord of three-fourths of North America.

The company's contribution to McGill university is its recognition of the fact that education is the cornerstone of national prosperity.

## Crowds Pay Tribute To Cardinal Gibbons

BALTIMORE, Md., March 31.—Ten thousand men, women and children stood outside the cathedral here today in a cold, drizzling rain to pay their last tribute to a lifelong friend, Cardinal Gibbons.

The church, which would accommodate but 1500, was early filled to capacity by those who wished to observe the funeral rites for the noted prelate.

Before the cathedral was temporarily closed shortly after midnight, more than 50,000 persons had filed past the coffin within the last forty-eight hours to gaze on his face.

The eulogy was pronounced by Archbishop Glennon of St. Louis, one of the cardinal's closest friends. It was a masterpiece of character analysis in eloquent though simple phraseology. The mass of repose was sung by Archbishop Bonzano, the papal delegate.

The obsequies were preceded by a procession of the clergy from Clavert Hall college, near the cathedral. A master of ceremonies in cassock and surplice led the way, followed by seminary chorists. Then came representatives of the various religious orders, then hundreds of cassocked parish priests from all parts of the country.

USE DOG TEETH FOR CURRENCY  
The Papuans use dog teeth for currency. A sufficient number of them will buy anything. Only the four canine teeth, however, are of any value, all the others being worthless.

These quaint coins are threaded on fibers, and when a wealthy Papuan goes trading he brings with him strings of these teeth. The women greatly prize them and make them into necklaces, their wealth and standing in the community being indicated by the number of teeth which compose these ornaments. The wives and daughters of the influential chiefs wear rows of them around their necks on every festive occasion. They polish them until they shine like ivory, and they certainly make an effective decoration on a glossy black body. One necklace, seen by a traveler, was composed of no fewer than 320 teeth, which means that 80 dogs were sacrificed to obtain them.

## THE TROUBLE WITH PARSONS

"Mamma, I've got a stomach-ache," said Nellie, six years old.  
"That's because your stomach is empty; you've been without your lunch. You'd feel better if you had something in it."

That afternoon the pastor called and, in the course of conversation, complained of a very severe headache.  
"That's because it's empty," said Nellie. "You'd feel better if you had something in it."

## HE COULDN'T ANSWER

"How do you like your new teacher, Bobbie?"  
"She's all right, mother."  
"Has she asked you any question yet you couldn't answer?"  
"Yes, ma'am. She asked me how old you were!"

Two-thirds of all the retail buying in this country is done by women.

## DISREGARD CRITICS AIRPLANE LUNCHEON AND WIN SUCCESS, SAYS AUTHOR

MAJOR RUPERT HUGHES IS SPEAKER BEFORE PUPILS LOCAL HIGH SCHOOL

History is fiction agreed upon. Americans should not follow the dictates of foreign literature. Success in writing comes to those who throw their every effort into their work.

Do your best, no matter what some critics say. It is best not to read an old book when there are new books to be had.

Whatever you do, always read the newspapers.

Criminal news should be published.

History of today is equal to that of a half century after.

Young people of today are fortunate in living in one of the greatest epochs in history.

Those are a few high lights from Major Rupert Hughes' address before the student body of the Glendale Union High school yesterday afternoon. The eminent author, who is now producing scenarios at the Goldwyn film studios, was introduced by Miss Freeman, head of the English department.

Radically differing from the accepted teaching of literature, he outlined how he and other novelists had reached the pinnacle of success by disregarding critics. Throughout his speech Major Hughes urged an earnestness in purpose for all youthful writers.

"Some people think that slipping on a banana peel is a serious thing, but I think it is a darn good joke. So when you fall on a banana peel you want to laugh" and the crowd will laugh with you," was one of the humorous remarks which interspersed his hour's talk.

At the conclusion Major Hughes was given one of the largest ovations given any speaker appearing before the student body.

JAMES W. HORNE GETS RIGHT TO TAKE VIEWS OF NOVEL AFFAIR AT BRAND HOME

James W. Horne of 1445 Valley View Road has been granted the exclusive right of taking motion pictures of the novel aeroplane luncheon to be given by L. C. Brand at the latter's aviation field Friday of this week.

As stated in Monday's Glendale News, invitations have been issued to army and navy aviation officers and many prominent men of Los Angeles and vicinity. The only entrance will be by air, as all the gates to the field will be locked.

Mr. Brand is an aviation enthusiast. In his hangars he has a 330-horsepower airplane limousine capable of making 140 miles an hour. It is luxuriously appointed, with mahogany finish, cushioned seats and brass trimmings. He also owns a 150-horsepower runabout. Any of the 100 or more invited guests must arrive by airplane. The date of the affair, it is noted by some, is April 1. However, it is declared that Mr. Brand is not seeking to play a joke on any of his friends.

Mobley plays the piano and violin, attends all athletic contests, is a first-class wrestler and is one of the most popular men in school. After graduation, Mobley plans to take up the practice of law.

## For as Little as \$5.00 Down and \$5.00 a Month You Can Buy Los Angeles Gas and Electric Corporation Preferred Stock

You can buy even as little as one share. That one share will pay you better than 7 per cent on your actual investment. It will be backed by security of liberal safety margin, and it will constitute quick collateral should you find it necessary to borrow money on it.

This is such an unusual investment opportunity that it is difficult to realize that it is really and truly available. The operations of the Los Angeles Gas and Electric Corporation are very profitable, not by virtue of wide margin of profit, but as the result of very extensive operations and very efficient management.

The gross earnings of the Corporation have increased 112.1 per cent in the past ten years, and now with the introduction of additional capital, and the expansion of service which is to follow, the gross earnings are bound to be very materially increased.

You can invest in this Preferred Stock with practically the same assurance of safety you would have in putting your money into the strongest savings bank, for the Preferred Stock holds priority

over the Common, both as to assets and dividends.

This means that all the resources of the Corporation stand first of all back of the Preferred stockholders. You must be fully protected first, and inasmuch as the net plant value of the Corporation is much greater than the total amount of securities which can be issued, the Preferred stockholder is definitely secure.

The stock is non-callable, too, which means that when you buy it you own it without any repurchase reservation against it. It is yours to resell at any time at any margin you can get on it.

Dividends are payable quarterly and are cumulative. There can be no question about the amount of your dividends, for that is definitely predetermined and at once becomes an obligation of the Los Angeles Gas and Electric Corporation.

This stock is free from taxes in California and the dividends are not subject to normal Federal Income Tax.

Feel free to consult with us regarding any phase of this investment which may not be clear to you.

## Three Hundred Are Slain In Uprisings

BERLIN, March 31.—Three hundred Germans have been killed in the communist uprising, it was unofficially estimated today. The German government prepared to end the revolt with the formation of special courts to try the thousands of prisoners.

It was stated officially that no red prisoner will be granted amnesty. An attempted general strike here fizzled. Several attempts were made to seize the factories, but augmented police forces easily suppressed the mobs.

Hundreds of arrests were made before the crowds dispersed.

Dispatches here today indicated the American army of occupation was called upon to do some police work in connection with the revolt.

The burgomaster of Wirges, in the American district, called for help when communists threatened the town. American doughboys went over and quickly restored order.

### SEEK TO HELP RAILROADS

WASHINGTON, March 31.—Working under direction of President Harding, cabinet officers and other government agencies today were seeking a way to get the railroads back on their financial feet. Secretary of Commerce Hoover has been gathering data on the railroads for some time. Secretary of Agriculture Wallace soon will furnish detailed information on how the high freight rates have hurt agricultural sections. The heads of the interstate commerce commission and railroad labor board are soon to meet with Harding and Senator Cummins, chairman of the senate interstate commerce committee, who is preparing for a thorough investigation.

### INDIAN REBUKED WASHINGTON

How George Washington was rebuked by an Indian chief for a breach of hospitality is told in The Gentleman's Magazine for November, 1820. The Indian who delivered the rebuke was an old chief. He had met Washington at Ticonderoga. Happening to be in Virginia, he called on Washington at Mount Vernon and was most cordially welcomed and entertained. After dinner, however, instead of thanking his host, the chief showed signs of disappointment and chagrin. Through the interpreter Washington asked the reason. Thereupon the chief stood erect in his outraged pride, and declared that Washington had not shown him the same degree of hospitality which he had shown Washington at Ticonderoga. The chief said that when Washington was visiting him he offered Washington the embraces of his wife. But now that he had come to Mount Vernon, Washington had not returned the civility by a similar offer.

Washington excused himself by declaring that it was not a custom of his country. But Mrs. Washington overheard. She became visibly agitated with terror. The Indian saw this, and through the interpreter told her she had nothing to fear. "If your husband had been as courteous as I was when he visited me, I should only have walked up to you to signify that I had the right to kiss you, but there I should have stopped," he said.

PRINT IS WORK OF THREE  
Japanese prints are wood engravings in color. The design is engraved in relief on a wood block, usually of cherry, known as the key block. Prior to 1743 the impression from the key block was colored by hand, and these prints are known as the primitives.

The first pigment used in coloring prints was tan (red lead). Then followed, in order, ben (a red extracted from saffron), a greenish yellow, a thin lacquer (rush), and a blue extracted from Chinese cotton. After 1743 blocks were made for each color and were applied to the paper by hand. A print is therefore the work of three craftsmen—the artist, the engraver and the printer.

## UNCLE JOE CANNON FORMER EMPEROR IS STILL INSISTING 'MORE POWER' PLANNING ATTACK UPON BUDAPEST

ASSERTS CONGRESS COULD DO  
MORE IF HEADS SELECTED  
FOR THEIR ABILITY

WASHINGTON—"Oh, don't waste any time on a last year's bird's nest." "Uncle Joe" Cannon of Illinois, eighty-five, the oldest member of the house, both in years and service in congress, made that reply recently when he was asked what he would do to speed up legislation if he again were wielding the gavel or the "big stick" as speaker.

It was nearly twelve years ago that the house had its showdown with "Cannonism," clipped the speaker's wings by taking away many of his powers and reorganized the house on more "democratic" lines. But those twelve years have not changed Mr. Cannon's views as to how the law machine of the government should be run.

### Recalls That Bitter Fight

With clenched fist, as though he were gripping the heavy gavel of the house, Mr. Cannon visualized himself again in the chair, raised his forearm and struck a terrific blow on the imaginary speaker's table. His eyes glistened as he put the question of whether his seat should be declared vacant as he did a dozen years ago, when he challenged the house members to remove him as their presiding officer.

"The Democrats had been stomach-aching and a lot of the Republicans had been yap-yapping because I had not given them the committee places they wanted," he said as he grew reminiscent. "I pointed out to them that the speakership could be declared vacant at any time, and suggested that if they wanted to get rid of me I would entertain a motion to declare the seat vacant."

"Barstow took up the suggestion and made the motion. Some of his friends got around him and urged him to withdraw it, but I held that it could not be withdrawn. Then I put the question."

The cheeks above the closely cropped white hair of the veteran legislator grew visibly pink, and he smiled.

"All those in favor of the motion of the gentleman from Texas will say 'Aye,' all those opposed 'Nay,'" Mr. Cannon quoted himself.

"It seems to me the nays have it. I hope someone will move a roll call," he said. "They did, and I am ancient history now. No one cares about that."

Fault With Present Method  
"But, suppose you were speaker now. How would you take up the slack and make congress function?" Mr. Cannon was asked.

"The speaker should have great powers. The house elects him and it should give him authority. If it doesn't like the way he exercises the authority it gives him, remove him. Now the committees which used to be appointed by the speaker are appointed by a committee of committees, made up of twenty-one members."

"They pick chairmen of the committees on the basis of seniority of service entirely. I used to pick men to head important committees on the basis of ability. I remember that on one occasion I picked John Weeks, who is now secretary of war, to head the postoffice committee after he had been in congress only two terms. The ranking Republican member of that committee and the man entitled to the chairmanship under the seniority rule was as old and as seedy then as I am now."

"Old men should not be appointed to head important committees of congress. I would not be qualified to head a great committee, yet for eighteen years I was head of the appropriations committee. The place should be filled by a younger man in possession of all his faculties."

Practiced What He Preached  
Mr. Cannon did not say, though he might truthfully have told it, that when he returned to the appropriations committee his colleagues wanted to give him his old place back, but he insisted on going to the foot of the list, just as though he were a brand new member. So today, although he has been in congress for more than forty years he is well down the list of members.

When Mr. Cannon was asked for his views on the new administration he replied: "Harding strikes me as a pretty level headed fellow. I went around there and left my card at the executive offices. Maybe I should have taken it over to the White House but I guess he will get it anyway." And to make this report absolutely truthful, it must be said that Uncle Joe Cannon was not smoking a long, black cigar, tilted upward at an angle of forty-five degrees.

### AN ORDER TO BE FILLED

Two negroes were working in a coal bin in a Mississippi town, one down in the bin throwing out the coal and the other outside wielding a shovel. The one inside picked up a large lump and heaving it carelessly into the air, struck the other a resounding blow on the head.

As soon as the victim had recovered from his momentary daze he walked over to the edge of the bin and, peering down at his mate, said:

"Nigger, how come you don't watch where you throws dat coal? You done hit me smack on de head."

The other one looked surprised.

"Did I hit you?"

"You sho' did," came the answer.

"And I jes' wants to tell you, I've been promising the debil a man a long time, and you certainly does resemble my promise."

CARL PROCLAIMS HIMSELF AS  
DICTATOR; THREE NATIONS  
THREATENING WARFARE

(Continued from Page One)

er part of the military and most of the peasants were opposed to Carl's return.

Carl was to be visited by high officials today who were to attempt to persuade him to leave the country. Advice said Swiss authorities were indignant that Carl should break his word and flee from his asylum there. They were expected to oppose his return.

Invitations were received from Spain, however, and unless Carl should receive the support of powerful military forces, it was expected that he would be conducted to the Spanish border.

News of the monarch's return is spreading gradually throughout the country despite a rigid censorship on newspapers. Great excitement was reported in the outlying districts. It was manifested chiefly in anti-monarchist meetings.

### Last Desperate Effort

PARIS, March 31.—Former Emperor Carl, staking everything in a desperate effort to regain his throne, today seized control of western Hungary, according to a dispatch from Vienna.

The Vienna dispatch, crediting advice to the Volks Zeitung, said the army in West Hungary had gone over to Carl and that the populace was rallying to his support.

Carl was reported to have sent an ultimatum to the Hungarian government at Budapest demanding the abdication of Admiral Horthy, the regent. Emissaries sent by Horthy to negotiate with Carl, joined the former emperor.

Hungarian troops in west Hungary joined Carl in the establishment of a military dictatorship there, according to a dispatch from Vienna.

Former Premier Julius Andrássy was said to support Carl and to have sent an ultimatum to Budapest.

The dispatch said General Lehar's troops, supposedly loyal to the government, had joined Carl's adventure. Lehar commands the largest force in west Hungary.

In West Hungary, Carl assumed full power under declaration of a military dictatorship, the dispatch said.

Count Julius Andrássy, sent originally to Steinmanger as a government envoy, was reported to have joined the monarchists and to have undertaken negotiations as Carl's spokesman with other Horthy representatives headed by Minister Gratz.

As a result of these negotiations, the Volks Zeitung said, there was a possibility that Admiral Horthy would yield control to the former emperor.

In the Steinmanger region there was no doubt of the monarchist sentiment.

### Join Great Procession

Peasants came miles to join in a great procession to honor the former ruler. Portraits of Carl and the Empress Zeita were carried alongside holy images. Churches and monarchist banners were intermingling above the cheering crowds passing the residence of the Bishop Count Mikes, where Carl is stationed.

Count Andrássy appeared on a balcony, the report said, and harangued the excited crowds on behalf of the former monarch. Great cheers greeted his assertions that conditions were far better when the Hapsburgs were in power than they are now.

Carl late yesterday drove to the wedding of a former lady in waiting to the empress. He was wildly applauded.

Carl's military supporters were said to have offered their troops for an advance on Budapest. The former ruler declined the offers.

"I oppose bloodshed," he was reported to have told them. "It must be avoided at any cost."

The military forces in West Hungary are regarded as the most powerful in the nation. General Lehar was reported to have full control over them and his adherence to the former monarch insure him sufficient support to withstand any government action.

### FRONT PORCH ARITHMETIC

He was trying to teach her 'rithmetic. He thought it was his mission.

He kissed her pnce.

He kissed her twice.

He said: "Now, that's addition."

Then there followed smack by smack. In silent satisfaction.

Timidly she gave pnce back.

And said: "Now, that's subtraction."

Then he kissed her and she kissed him.

Without an explanation.

Then both together hugged and said: "That's multiplication."

But dad appeared upon the scene.

And with his great decision.

He kicked him miles away and said: "That's long division."

## PARAMOUNT FILM AT PALACE GRAND

DOROTHY DICKSON, DANCER, IS  
FEATURED IN ATTRACTION  
TONIGHT AND TOMORROW

A Paramount picture of more than average merit—a George Fitzmaurice production—will be the feature attraction at the Palace Grand theatre for two days beginning this afternoon. The featured player is Dorothy Dickson, a well known dancer of New York, and she is supported by an exceptionally clever corps of players.

The story deals with the idle rich of the great metropolis, who are hardened to the ordinary pleasures of life because of their wealth. When those directly concerned in the narrative become impoverished, their regeneration is accomplished. There are numerous thrills in the development of this highly interesting theme. The picture has been produced with unusual attention to detail, and many of the sets are said to be magnificent.

A Vanity comedy special, "His Better Half," combined with cartoons and Kipograms round out the big two-day bill. "The Serenade" by Herbert is the orchestra's offering as the overture. "O-H-O," "Just We Two," "Dance It Again With Me" are among the other musical numbers.

### WHERE MEN ARE INFERIOR

Near the city of Ishinomori, in Japan, is a settlement in which woman's rule may be said to be complete. The wives support the husbands and children and are the acknowledged heads of the family. The men keep house and do other work that usually is performed by women.

This condition of affairs is due simply to the fact that the women are more proficient in the chief industry of that vicinity than the men. The settlement is on Shiam Bay, where pearl shells are abundant and are taken from the bottom of the sea. These women pearl-divers think nothing of working at their task for 10 hours a day, remaining for two or three minutes at a time below the surface of the water.

The birth of a boy is considered bad luck, while great rejoicing hails the arrival of a baby girl. Men are regarded as inferior in every sense. At the early age of 4 years girls are taken to the sea and taught to swim and dive. At 14 they usually "retire." It is not uncommon for many of them to have become grandmothers at that age or a little later, and the rest of their lives is spent in educating younger generations in the art of swimming and diving.

### DOUBTS DISPELLED

"What's happened to Blondie all of a sudden?" asked Claudine of the rapid-fire restaurant. "She's been in the indigo for days, but now she's as chirky as a medder lark."

"She's satisfied about Spike," replied Heloise of the same establishment. "She asked him on the street last night if he really and truly loved her, and he slapped her jaw right in front of a picture show for having any doubt of it."
